Front-End Developer

## SUMMARY

I am an eager and passionate Web Developer with 1.5 years of experience in building responsive, user-friendly websites. While still learning and expanding my expertise, I have gained solid experience in frontend technologies (HTML5, CSS3, JavaScript, Bootstrap) and WordPress (theme customization, plugin management, and content optimization).

In my most recent role as a Junior Front-End Developer, I contributed to creating SEO Friendly websites, optimizing web performance, and improving user experience. Additionally, I gained valuable insights into technical SEO and website performance.

## EDUCATION

Silver Oak University	July 2021 - May 2024
<b>Bachelor of Computer Application</b>	
<b>CGPA:</b> 9.18/10.00	

## EXPERIENCE

eBranding Studio	July 2024 - Nov 2025
<b>Junior Front-End Developer</b>	
• Developed responsive website layouts using HTML, CSS, and JavaScript. • Assisted in troubleshooting and debugging website functionality issues. • Maintained and updated existing websites to enhance performance. • Gained hands-on experience in building SEO-friendly websites, focusing on on-page SEO practices such as keyword optimization, meta tags, and clean code structure.	
Sunshine Info Solution
